

# Voting System Pricing

October 2023

The hardware needed for a polling place is one VxScan (**\$6,000**) and one VxAdmin (**\$1,000**), totaling **\$7,000**. Annual maintenance and software upgrades are part of a **\$500 per year subscription**.

Municipalities that need multiple tabulators can choose to purchase multiple VxScans and those with multiple polling places may choose to purchase multiple VxAdmins.

## Hardware Price List

Component	Unit Price	Optional
VxScan	\$6,000	
VxAdmin	\$1,000	
Central Printer	\$500	Yes

VxAdmin & VxScan include a collapsible ballot box, battery backup, and smartcards. Consumables such as USB drives, printer paper, and tamper evident seals are available from several COTS suppliers.

An optional laser printer is available to print reports from VxAdmin.
